MULTIDISCIPLINARY TEAM - CONFERENCE REPORT

CONFIDENTIAL

This report is consultative in nature.

All final case management decisions are made by the Department of Human Services.

Conference Date	7/2/2024	Time: 9:00am – 10:30am
Conference Place	Child and Family Service - Ewa	

DHS Case Name:	[REDACTED]
Child Name:	Deceased child [REDACTED]

DHS Case Worker: Jessica Wong-Sumida
DHS Supervisor: Julie Stielow
Intake Date: 6/14/2024
Case #: [REDACTED]

Family	Name	DOB	Location
Mother	[REDACTED]	[REDACTED]	[REDACTED] HI
Father	[REDACTED]	[REDACTED]	[REDACTED] HI
	[REDACTED]	[REDACTED]	[REDACTED] HI
	[REDACTED]	[REDACTED]	[REDACTED] HI
[REDACTED]	Deceased child [REDACTED]	[REDACTED]	DOD: [REDACTED]/2024 [REDACTED]
Mother's Partner	[REDACTED]	[REDACTED]	[REDACTED] HI

Reason for Team:

- Diagnostic – Assessing the presence or absence of child abuse/neglect; threatened harm**
- Service Planning – Assisting in the development of an appropriate service plan for the family**
- Case Review / Direction – Assessing the current status of the case
- Assessing the safety of home
- Other:

Type of Case:

- Death**
- Serious harm
- Reabuse on an open (active) or closed case**
- Hospitalization due to suspected child abuse or neglect on an open (active) or closed case
- Suspected child abuse or neglect on an open (active) or closed case
- New MDT Case**
- Case action moving toward TPR
- Case moving toward reunification
- Other:

CASE ANALYSIS

MEDICAL AND NURSING REPORT: Child(ren)'s Status, Functioning, Needs

Physical Status of Each Child:

Deceased child died on [REDACTED] /2024 at the age of 3 years 11 months old. [REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

Photos provided by CWS of [REDACTED] body show her to be underweight, emaciated, and covered with patterned bruises indicative of physical abuse and starvation. [REDACTED]

[REDACTED]. EMS documents and records from QMC West are not available for review. [REDACTED]

[REDACTED] she was admitted to QMC West at 7:25pm. She was pronounced dead at 7:43pm. [REDACTED] had bruising in different stages of healing on both her legs (knees to toes), left thigh, back, and trunk. Her weight was reportedly only 29 pounds. She had an adult-sized handprint bruise on her buttocks, massive bruise on the left abdominal hip area, bruising along her spine, and multiple bruising covering both legs. HPD reported to CWS that [REDACTED] had bruising to the left lower arm, and left side of the rib area. HPD has classified the incident as an unattended death with suspicious injuries. A skeletal survey may have been done at Queen's West before the body was transferred to the medical examiner, but no results are available for review.

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

Overall Child(ren)'s Medical Assessment:

[REDACTED]

[REDACTED] The histories provided by [REDACTED] and the findings on [REDACTED] body are consistent with chronic, severe child maltreatment including starvation and physical abuse. Although the cause and manner of death is pending, it is most likely that the serious maltreatment inflicted on her contributed to [REDACTED] death. [REDACTED]

[REDACTED] No medical care was sought for [REDACTED] despite these symptoms prior to her death.

[REDACTED]

[REDACTED]
Kayal Natarajan, MD, FAAP
Medical Consultant

[REDACTED]
Julianne Aquinde, RN
Nurse Consultant

PSYCHOLOGIST REPORT

Psychosocial Status of Each Child:

[REDACTED] Emergency Medical Services (EMS) responded to the family home on 6/13/2024 and transported [REDACTED] (age 3 years 11 months) to the hospital where she was pronounced dead. She was noted to have bruises in multiple stages of healing (including an adult-sized handprint bruise) and was observed to be malnourished and underweight. [REDACTED]

TEAM ASSESSMENT

Based on the consensus of the Multidisciplinary Team Consultants, the following has been determined:

[REDACTED] The purpose of the MDT Conference was to provide a diagnostic assessment, and case review/direction. A diagnostic assessment indicates that there are multiple inconsistencies provided by [REDACTED] "caretakers" [REDACTED]. The histories provided by [REDACTED] and the physical exam results are consistent with chronic, severe child maltreatment including starvation and physical abuse, which most likely contributed to [REDACTED] Deceased child death. [REDACTED]

[REDACTED] The unexplained death of [REDACTED] and severe abuse and neglect of the [REDACTED] in the home indicates pathological parenting. [REDACTED]

[REDACTED]

TEAM RECOMMENDATIONS

*The following recommendations are consultative in nature.
All final case management decisions are made by Department of Human Services.*

Placement Recommendation

1. No Placement Recommendations as child is deceased.
